Course Levels

An understanding of course load requirements and a description of classes open to students at different levels is useful before enrolling.

The university course numbering system indicates courses generally available to students at different levels.

Courses that do not require prerequisites are available to students with the necessary level of experience.

- 100–299 Lower-division courses are primarily for freshmen* and sophomore* students.
- 300–499 Upper-division courses are primarily for juniors* and seniors.*
- 500–599 These graduate courses are open to graduate students and qualified undergraduate seniors.
- 600–699 These courses are open to all students admitted to graduate study.
- 700–799 These are advanced graduate courses, usually reserved for doctoral students.

If a course has a prerequisite, you must either have received credit for the prerequisite or be completing the prerequisite before you can take the course. Otherwise, you must present satisfactory evidence to the course instructor that you can successfully complete the work. If a course is listed with a corequisite, you must enroll in both courses at the same time.

You may take any course listed without a prerequisite if you have the necessary level of experience (as explained below). For example, normally a first-year student shouldn't enroll in a course at the 300 level or above, and a sophomore shouldn't enroll in a course at the 400 level or above.

Academic Levels

*The Registrar's Office classifies students based on the number of units completed by the close of the preceding term.

Number of Units	Academic Level
0-29	Freshman
30-59	Sophomore
60-89	Junior
90 or more	Senior

Course Designation

NAU currently uses seven designations at the end of course numbers to indicate specific kinds of courses. These are:

Letter	Designation
C	Senior capstone course, approved by the Liberal Studies Committee
H	Honors course
I	Integrated: two or more courses taken concurrently (as corequisites) by a cohort of students.
L	Laboratory course
R	Recitation course
W	Junior-level writing requirement course. The Liberal Studies Committee approves courses for "W" status.
X	Developmental course, taken when a student is not ready for a non-X course. Readiness may be based on a low placement score or the need to develop basic competency. An "X" course may be counted for financial aid purposes, but not for academic requirements or Grade Point Average (GPA) calculations.

Course Prefixes

We use the following codes, or prefixes, in course descriptions at NAU and NAU Extended Campuses.
